## Our Products

Nipple Drinkers

Drip Cups

PVC to GI Hanging Clamp

Transparent Filter

Pressure Regulators

Ceiling Winch

PVC Pipes

275gsm GI, Support Pipe

## Features of Drinking System

- Continuous supply of fresh and clean water
- Nipple drinkers with drip cups to prevent wastage
- Pressure regulator ensures uniform water flow
- Easy-to-clean filter for pure and safe water
- Medicator system for adding vitamins & medicines
- Adjustable line height for chicks to adult birds

# CHICKS DRINKER

**Clean water, dry litter, and better brooding performance.**

## Features

- **Anti-Spill Design:** Prevents leakage and keeps the litter dry.
- **Easy Refill System:** Detachable top for fast filling and cleaning.
- **Transparent or Bright-Coloured Top:** Allows easy visibility of water level.
- **Stable Base:** Wide circular bottom prevents tipping by chicks.
- **Available Capacities:** 1 litre, 2 litre, and 4 litre drinkers for various flock sizes.
- **Hygienic Water Flow:** Maintains steady water level for easy access.

## Construction & Materials

- Built from virgin, food-grade polypropylene plastic.
- UV-stabilized and chemical-resistant material ensures long life.
- Smooth inner surface for easy cleaning and no algae buildup.
- Designed for durability, stability, and safety in poultry brooding environments.
